RETRO-MATH

WHAT IS *GAME NAME* ?

RETRO-MATH, is a fast-paced educative game revolving around the world of Mathematics. Delve into the adventures of the band of misfits. A rowdy and playful bunch of kids who part take challenges to save the world and cause havoc everywhere they go, using their knowledge of BODMAS. An ancient battle concept passed down upon them by past legends. It sees you trying to escape from the grasp of the subtraction squad. You may play alone, against fellow companions or even team up!

Get your Avatar to the safe zone before the subtraction squad attack.

RETRO-MATH

SYSTEM REQUIREMENT

MINIMUM REQUIREMENTS:

OS:	Windows 7 / 8 / 10
CPU:	1.8 GHz or faster processor.
RAM:	4 GB
GRAPHICS CARD:	None
SOUND CARD:	DirectX-Compatible Soundcard
STORAGE:	10MB

MEET YOUR AVATARS

- MUSHY (> ^ o^> :

Our fun loving and courageous friend. He is the leader of the band of misfits.

- CRABBY V.v.V :

A shy and carefree friend. Ran away from home to join the misfits and share the joys of mathematics across the world, also MUSHYS inseparable best friend.

- JOE (^ OuO^):

The Smarty Pants of the group. Comes up with elaborate and cunning ideas to escape trouble.

- TWEETY <(^O^)> :

She's new to the group.

RETRO-MATH

MEET THE SUBTRACTION SQUAD

- DR SPIDER $\backslash(0 \dots 0)\backslash$:

He's been tracking down the group for years. He wishes to harness their knowledge of mathematics and use it to take over the world. He comes up with the most elaborate of puzzles and has quick reaction times. If you do not get enough questions right, he kidnaps the misfits and completes his plan for world domination.

- OLD MAN KRABS $(\vee)!_!(\vee)$:

He is CRABBY'S uncle. He wants to capture the group and detain them to a life without math. He believes Math is not relevant in today's world. He uses moderate puzzles as traps for the misfits. If you do not get enough questions right, he makes you work for long hours in the sugar cane fields.

- SIR PIGGY $(\text{oo})`$:

The misfits continuously disrupt his peaceful mundane days. All he wants is sometime alone without someone screaming 2 TIMES 2. He creates puzzles just to distract the kids for a small time. He enjoys playing with them but they get on his nerves. If you do not get enough questions right, he forces you to do housework and help clean his smelly feet

HOW THE GAME RUNS?

- Choose the number of players. 1 is single player, 2 and 3 are versus against friends. 4 is a battle of supremacy where you team up with your fellow companion and take on two of your other friends.
- Once you have picked the players you must now choose your conquest. Choose to escape from one of the members in subtraction squad. Easy mode sees you escape from SIR PIGGY, he may be old, but he can put up a fight. Challenging sees you escape from the claws of OLD MAN KRABS and finally God mode sees you trying to escape from DR SPIDER, his questions are tricky and very complex. He also has a very small window to escape from.
- After choosing Difficulty, you can enter how many questions you wish to answer. We have set a range from 5 to 10.
- Once you have completed the necessary pre-requisites, each player has the chance to enter their own unique Player name.
- Now is the time for battle.
- If you had opted for single player. A question is generated by 1 of the subtraction squad members and they give you an answer. It is up to you to figure out if the answer is True or false. To do this simply enter t or f and press enter. Your opponent will record your score and carry on asking until you have finished answering all questions. At the end, your fate is decided, would you have saved our beloved gang. Or will they fall victim to the subtraction squad. Your score is calculated, and you can view your answers.
- If you opted for multiplayer you are given a choice. Having 4 players invokes a team match where player 1 and player 2 are on team alpha, and player 3 and player 4 are team beta. Each player gets a turn answering the questions given to them by the Subtraction Squad. The scored are tallied up and we invoke a winner and MVP status to those with the highest score, fastest time and most questions correct. Each player is shown whether they saved out lovable band of misfits and each player is given the chance to see where they went wrong.
- Typing in help during a question will display the answer and method working. Alas your score will not be recorded.
